

YANG, JIAYU

Mobile: +86 18368305727 | E-mail: jiayu_yang@zju.edu.cn

Address: No. 866 Yuhangtang Road, Xihu District, Hangzhou, Zhejiang Province, 310058, P.R. China

Education

Zhejiang University, Hangzhou, China

Sept. 2025 – Jun. 2027

Admitted through merit-based recommendation (Top 1%)

- M.S. in Financial Technology, International Business School
- Average score: 90/100
- Relevant Courses: Investment (96); Quantitative Risk Modelling (94); Financial Statement Analysis (92); Machine Learning in Finance (90)

Shenzhen University, Shenzhen, China

Sept. 2021 – Jun. 2025

- B.S. in Financial Technology, WeBank Institute of FinTech
- Average score: 89/100, GPA: 4.09/4.50, Rank: 1/60
- Relevant Courses: Advanced Mathematics (93), Linear Algebra (100), Corporate Finance (90), AI & Machine Learning (94), Database Systems (90), Financial Accounting (96)

Research Interests

Corporate Finance, Climate Finance, FinTech, Managerial Behavior, ESG/CSR, Empirical Asset Pricing

Publications

Research Experience

International Business School, Zhejiang University

Nov. 2025 – Present

Graduate Researcher, Supervised by Professor Wenyu Zhou

Evolution of Efficient Frontier in Chinese Macro Asset Allocation: 2005-2025

- Constructed and compared traditional asset allocation methods (equal-weight, risk parity, minimum variance, maximum Sharpe) with machine learning methods using daily data of multiple Chinese macro assets;
- Systematically analyzed how efficient frontiers shift outward as asset sets expand over time.

Predicting Fund Size and Performance from 3V Managerial Signals in Pitch Videos

- Utilized multimodal foundation models to quantify Visual, Vocal, and Verbal behavioral signals from private equity fund pitch videos;
- Analyzed how 3V behavioral features predict fund raising size, capital inflows, and performance.

Who Trades at the Close in China?

- Constructed intraday and daily panel datasets for China A-shares to measure closing auction activity, price deviations, overnight reversals, and market frictions;
- Investigated passive ownership, index inclusions, exchange-level auction reforms, and Stock Connect in driving end-of-day trading, showing how institutional demand and market design affect closing-price efficiency.

International Business School, Zhejiang University

Feb. 2025 – Present

Research Assistant, Supervised by Professor Hua Wang

Heatwaves, Fiscal Adaptability, and Health Risks

- Studied the impact of extreme heat on local fiscal pressure and population health using 2012-2022 panel data of 31 Chinese provinces;
- Revealed that fiscal adaptability effectively buffers adverse impacts of high temperatures on health and public finance;
- Paper submitted to One Earth.

WeBank Institute of FinTech, Shenzhen University

Apr. 2023 – Present

Undergraduate Researcher, Supervised by Professor Yolanda Yulong Wang

Corporate Social Responsibility and Firm Litigation Risk: Evidence from China

- Investigated the impact of CSR on litigation risk among Chinese A-share listed companies using 2010-2019 panel data with over 20,000 firm-year observations;
- Applied instrumental variable method, PSM-DID, and Heckman two-stage model to address endogeneity concerns;
- Published in International Review of Financial Analysis.

Physical Climate Risk and Outward Foreign Direct Investment: Evidence from China

- Constructed firm-level physical climate risk measures using high-frequency meteorological data;
- Examined how extreme climate events affect corporate OFDI decisions through risk diversification channels;
- Paper submitted to International Review of Economics & Finance, student first author.

Supplier Physical Climate Risks, Customer Decisions, and the Mediating Role of Risk Perception

- Linked supplier locations to high-resolution NOAA weather records and firm-supplier relationships from 2008-2024;
- Applied instrumental-variable strategy based on ENSO-related sea surface temperature anomalies;
- Documented that suppliers' extreme-heat exposure significantly increases clients' supplier expansion and substitution behaviors.

Air Pollution, Employee Health, and Managerial Short-Termism

- Examined the causal effect of air pollution on managerial myopia using 2014-2023 A-share panel data;
- Identified employee health deterioration and increased labor costs as key transmission mechanisms.

China Center for Special Economic Zone Research, Shenzhen University

Sept. 2022 – Jun. 2024

Undergraduate Researcher &Research Assistant, Supervised by Professor Ping Zhang

Capital Market Opening and Related Party Transactions: Quasi-Natural Experimental Evidence

- Utilized Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect as quasi-natural experiments;
- Applied staggered DID regression and parallel trend tests; Published in Applied Economics.

How Consumption Variety Affects Rent Prices: Evidence from Commercial Housing and Urban Villages

- Analyzed the impact of consumption diversity on housing rental prices using Shenzhen big data;
- Paper submitted to Empirical Economics.

Work Experience

WeBank Co., Ltd., Audit Department

Apr. 2025 – Jul. 2025

Business/AI Audit Intern

- Conducted research on LLM applications in auditing; participated in full-cycle audit model development including data processing, fine-tuning, prompt engineering, deployment, and testing;
- Built data analysis dashboards using Yonghong BI for audit system metrics and operational analytics.

Guotai Junan Securities, Overseas Technology Research

May 2024 – Jul. 2024

Industry Research Analyst

- Conducted in-depth research on the semiconductor industry, tracking global market trends, technological innovations, supply chain dynamics, and competitive landscape;
- Authored comprehensive industry research reports with detailed financial analysis and market forecasts.

Honors & Awards

- National Scholarship, Ministry of Education of the People's Republic of China.....;.....2024
- Top 100 Outstanding Undergraduate Thesis, Shenzhen University.....2025
- Top-Talent Full Admission Scholarship, Shenzhen University.....2021
- Top-Talent First-Class Scholarship, Shenzhen University.....2022, 2023, 2024
- Second Prize, National Business Simulation Competition, National Level.....2023

Skills

PROGRAMMING & DATA ANALYSIS:

- Python, R, Stata, SQL, C/C++, PHP, HTML; Proficient in econometric methods including DID, IV, PSM, RDD, and panel data analysis; Experience with machine learning models and LLM fine-tuning

LANGUAGE:

- Mandarin (native); English (IELTS: 7.0; CET-6: 549; CET-4: 638)
